PROFILE SUMMARY

Front-End Developer focused on React, TypeScript, and Next.js, building modern, responsive, and component-based user interfaces with Tailwind CSS, experienced in working with APIs and state management, with a strong motivation to learn and grow in team environments.

EXPERIENCE

- Front-End Developer** 2024 - PRESENT
Self-Directed
- Developed multiple real-world front-end projects using React, Next.js, and TypeScript
 - Built responsive, component-based UIs with Tailwind CSS
 - Integrated REST APIs and handled client-side state management
 - Focused on clean code, reusable components, and performance
 - Worked with Git/GitHub for version control and project management

PROJECTS

Portfolio Next.js

This portfolio showcases my best projects and skills in React, Next.js, TypeScript, and Tailwind CSS, highlighting my approach to clean, responsive, and component-based web development, along with a brief introduction about myself and my experience.

Greencart Next.js

GreenCart is an e-commerce web app built with React, TypeScript, and Tailwind CSS. It features modern, component-based UI, client-side state management, and API integration, providing an interactive, user-focused shopping experience.

Resume Builder React

JioResume is an online resume builder that helps users create professional resumes efficiently. It offers customizable templates and intuitive tools to present skills, experience, and education clearly, enabling users to craft polished, job-ready documents.
